

Sue Murphy

I have been teaching at Scooter School since 1998. I began as a substitute for all the classes and then became a teacher in the three-year-old classes. I currently teach morning and afternoon classes for three-year-olds on Tuesdays and Thursdays and a four-year-old class on Monday, Wednesday and Friday mornings. I continue to substitute in the afternoon four year old class and the step-ahead class.

I first became involved with Scooter School as a parent in 1991 when my oldest child started preschool. All three of my children attended Scooter School and Scooter Scamp. It was an immensely rewarding experience for all of us. I was continually impressed and was elated that the school was accredited.

As my children moved on to kindergarten and elementary school I volunteered in the art room, the gym, the computer room, the library and the classrooms. I volunteered in the Norton school library once a week from 1997 to 2006. By the time my last child graduated from Scooter School I knew that I wanted to further my education in child development and teach preschool.

I have an Associate's Degree in Early Childhood Education, and in 2003 I was awarded a Child Development Associate Credential (CDA) by the National Council for Professional Recognition in Washington D.C. I also have a Bachelor of Science degree in Management Information Systems and in Management, and minors in English and psychology. Previously, I worked in the engineering department of AT&T for five years as a manager in computer programming.

I live in Cheshire with my husband, Pat, our children, Kelly, Matt, and Sean and our dog, Riley. I love to read and do crossword puzzles. I love summer, the beach, animals, and the color blue. I especially enjoy teaching preschoolers and find it to be a very fulfilling experience.
